Yo, this is the Black Dragons, and here we go!

We're gonna bust that  
E-O-G  
We're gonna knock it right down  
to its knees  
We're gonna punch that test  
in the eye and  
send our test scores to the sky!

Jack

We're gonna put dat E-O-G out  
Put us on the 100 percent route  
Getting ready while my teacher  
passes the pencils out  
Studyin' all day with that per-soni-fi-ca-tion  
Learnin' all the vocab so we can rock the na-tion  
We NEVER get nervous  
We learned 'bout dat author's purpose

Karl

Uh! I'm gonna pass this grade  
All my skills will never fade  
(Echo: fade, fade, fade)

Michael

**Yo! Imma kill this show**  
**Pack it up & send it off down the road**  
**I'll be like, "Boom! Bang! Pow!"**  
**with that onomatopoeia--**  
**Sayonara EOG; it wasn't nice to meet ya!**  
**Imma rock this history; physics ain't no mystery**  
**This EOG ain't got *Nothin' on ME***

Nogey

We're gonna bust that  
E-O-G  
We're gonna knock it right down  
to its knees  
We're gonna punch that test  
in the eye and  
send our test scores to the sky!

# EOG Song

Yo! I had a good breakfast  
Imma race this EOG and I  
Ain't comin' in second  
And I pull up to school  
Imma wreck it  
Just like playin' the video  
game, Tekken  
100 percent on every test is where my rep. is  
Diggin' out this scores like I'm gunnin'  
In the trenches  
And after a long day of studyin'  
Imma sit on deez benches

Karl

It's us against the test  
but we are the best  
like division, I confess!

Michael

**I'll be all rockin' it, sockin' it, droppin' it,**  
**Imma pop the top of the EOG off of it**  
**I drink up this test like it is Gatorade,**  
**Slay it with my pencil like Sir Francis Drake,**  
**Storm the EOG like they stormed the Bastille,**  
**Give it a message, like WWII newsreels**  
**In fact, Imma drop the A-Bomb on it,**  
**Cuz I'm gonna get an A on it,**  
**Knock it down; won't let fear push me around,**  
**Take this EOG; wrestle it to the ground!**

Nogey

We're gonna bust that  
E-O-G  
We're gonna knock it right down
